

***“Monitoring and Reporting of Health and family welfare campaign by DFP”. Sponsored by DFP, M/o I&B. 2012-13.***

The objective of this special programme is to promote and create awareness about key health programmes and schemes relating to maternal and child health and life-style diseases among the target audience. The campaign was laid down at the workshop which saw active participation from State Health Departments, DFP officials, NGOs, ANMs, and Government Media Units. Workshops played the crucial role in educating the field functionaries of DFP about different aspects of the campaign.
